

Project MuSMo

www.musmo.com

Internship / Part-Time

We are...

...a startup – Project MuSMo. First conceptualized in 2006, backed by 3 partners, with a combined (digital) music industry experience of 10 years. We have since established a few basic ambitious goals:

- a) the project is to be bootstrapped;
- b) the project must have a sustainable business model;
- c) the project must solve a real need!

What we do...

We are here to **FREE YOUR MUSIC!!**

We focus on 3 key issues: a) **managing**, b) **organizing**, c) and **experience** of your personal digital music collection.

Similar services: Lala.com, Last.fm, and Spotify.com

What we expect from you...

- Work remotely – IRC, Skype, Wiki
- Work in Linux environment
- To enlighten / Be enlightened
- Passionate
- Dynamic
- Creative

What you will be doing...

1. Improve your programming skills – Python, C and C++, Javascript, etc.
2. Create fresh and usable components
3. Prototype, and optimise components
4. Plan, design, code, analyse and document components

What you should expect from this project...

1. Experience unique working culture of a bootstrap startup
2. Engage in remote work experience like in many FOSS projects
3. Hands on experience with Python-based framework – Zope 3
4. Engage with Internet concepts/technologies eg REST, RPC, P2P, DHT, etc.

Who you must contact for further information and/or to apply...

Send your CV and motivation statement to KwangErn (kwangern@musmo.com)
